To Whom It May Concern:

Kathy Kloppenburg attended our 6 month Veterinary Office Assistant Certificate Program from August 02, 2005-February 10, 2006. I had the pleasure of being her instructor during this time. Kathy was an exemplary student and she always strived to better herself, both personally and academically. She even took on additional, optional course material to further her education in the field of animal care.

On a personal level, Kathy was always bright, cheerful and gregarious. She got along very well with all of her peers, instructors and practicum supervisors and often took on a leadership role. She attended class or practicum sites as required and she was always prompt. It was a joy to have Kathy as one of my students and I can recommend her without hesitation for any future professional endeavors that she wishes to pursue. She was an asset to our program and I am very proud of her accomplishments thus far. I would confidently entrust my own animal's care to Kathy, if the need should ever arise.

Please contact me should you have any questions or concerns regarding Kathy or her progress here.

Regards,

Patti Stoke, A.H.T.
