

Kat's Kennel Review

(By Jamie Adams, November 16th, 2012)

There is only one kennel that we take our dog Hurley to and that is Kat's Kennel. We have tried others in the past but none have had the cleanliness, reliability and the level of individual pet attention that they provide. When I recommend Kat's Kennel to friends, I always tell them that what I like the most is that I genuinely don't need to worry about Hurley while he is there. I know that he will be safe, fed, clean, socialized and well cared for.

(Hurley)

We first arrived at Kat's Kennel in 2009, showing up unannounced to talk with the owner and inspect the kennels. We were greeted by Kat, a knowledgeable, well organized and professional kennel operator that was happy to show us around. The facility was clean and well taken care of and so were her pets. We have been bringing Hurley there ever since. They have large indoor / outdoor kennels and fenced in areas for dogs to run and play. Hurley always comes home smelling like he did before he arrived and is tired from all of his socialization and play.

I highly recommend Kat's Kennel as they have proven to be very accommodating, exceptionally versed in working with dogs, and provide genuine care for their "guests".
