

#### Kat's Kennel Testimonial – October 2012

From the kidz: Kats Lake Rd Kennels is our home away from home.....In fact we like it so much when our parents come to pick us up, we greet them, but are in no hurry to go home much to their disappointment.

From the parents: Two of our dogs have special needs, Fud our one eyed pug requires daily med in his eye and KC our golden retriever requires daily med for his knees. All three enjoy fruit & veggies which Kat cuts and cooks for them on our long trips. The facility is amazing, spacious, clean and our dogs get the exercise they need in a controlled environment. Kat and Dave are wonderful, caring and dedicated people who do so much for us.

It was the happiest day of our lives when we met Kat & Dave & they accepted our furry family as part of theirs. We have peace of mind when we travel knowing our kidz are safe, loved and well cared for.
