

Kat's Kennel Testimonial – October 2012

Both of our beloved German Shepherds, Scotia and - towards the end of her long life - Katie, have been visiting Kat's Kennels since May 2008. Kat and Dave take our pets in and care for them like they are part of their family.

When we're busy preparing to go away on a trip, taking the family dog to Kat's Kennel is one less thing to worry about. Arrival is calm, stress-free and orderly. We know we are leaving our dog at a place where she will be relaxed, safe, played with and cared for like no where else.

Kat always goes over who Scotia's 'neighbours' are going to be, assures us we will be contacted if any problems arise, and wishes us a safe trip. We appreciate her insistence that all her boarders' vaccines are up-to-date; it protects everyone and ensures that all animals are healthy.

Kat and Dave certainly go above and beyond with their boarding facility, and we've recommended them to many friends. We are fortunate to have them in our community.
