

Hello my name is **Satya**. I am a 9 year old **Lakeland Terrier** and I live in Malagash, Nova Scotia. I am a terrier through and through. When my humans need to travel they take me to Kat's Kennels. I love going there. As soon as we pull in the driveway I am eager to get to my suite which includes an indoor and outdoor run, unless it is too cold in the winter for the private outdoor run. It is always clean and inviting. I also get to go outdoors with Kat in her BIG yard at least five times a day and always get a treat after playing. Sometimes in the BIG yard I run with my friend Rex, if Lily and Ruby are not around. They are all Kat and Dave's dogs.

Kat is really good with helping my humans figure me out. For example, for a long time I did not want to go in a kennel in the house or in the car. I let them know by spinning and spinning around. But they wanted me to be safe while riding in the car so they bought me a harness that attached to the seat belt. I didn't like that much either, so learned to get out of it really fast. Kat suggested that I could ride in a kennel and she even came over to our house to show my family how to make it a fun experience. She said that as long as we believed I could do it, it would work. We played lots of games (sometimes with treats) and going in the kennel became fun. We went for short drives and I started to like having my own space. The next time I stayed with Kat, she and Dave took me driving everywhere: into town where I waited in the car for them to return; on long drives around the area; and even out back on their land where we bounced around and I was safe in my kennel.

Kat has helped me when I get a bit anxious too. She gives me a back massage and she is really calm and loving. Maybe she likes me best of all her dogs ~ well at least it sure seems that way. When I talk to the other dogs at the kennel they all say that they like it there too and they think Kat is really special. My humans are always saying how much they appreciate all that Kat has done for me and that they are so happy to have a place for me where they know I will be well taken care of and loved. Kat's is the next best place to home.

I give it four paws up!!
